Be adventurous and take your most recognisable marketing asset to a whole new dimension by investing in some logo grass branding for your business, club, school or organisation.

Indoors for the corporate office, reception area or as a welcome mat, outdoors as part of a larger artificial grass installation or as a stand alone display or play area, a synthetic grass logo will be sure to attract attention!

With your brand on show for everyone to see, our custom grass logos will make fabulous promotional tools for commercial areas and sales events.

The simple but spectacular way that a logo can heighten awareness makes it a cost-effective marketing tool for highlighting your brand identity. A logo mat is easily and readily transportable and can be used over and over again.
